

AHK INDIEN WORKSHOP

## Carbon Accounting in line with CBAM: 2-Day Virtual Workshop

Preparing for the Carbon Border Adjustment Mechanism

Climate change poses a significant global threat, impacting human communities and the environment. As nations work to reduce greenhouse gas emissions, policies like the European Union's Carbon Border Adjustment Mechanism (CBAM) are reshaping how businesses measure and manage their carbon footprint, particularly in producing goods.

Central to the efforts of companies to track their carbon emission is the accurate quantification, monitoring, reporting, and verification of GHG emissions. The GHG Protocol provides a standardised framework for measuring and reporting business-level GHG inventories, aligning with the requirements of CBAM.

Join the Indo-German Chamber of Commerce for a **Virtual 2-Day Workshop on Carbon Accounting for CBAM**. The foundational workshop is designed to equip professionals to understand and navigate carbon accounting in line with the requirements of the Carbon Border Adjustment Mechanism (CBAM).

The workshop combines German training and pedagogy standards with a curriculum adapted to the Indian business environment. Over two days, participants will gain an understanding of the methodologies and guidelines outlined in the GHG Protocol. The workshop will provide practical insights into GHG accounting, empowering participants to align their companies' compliance with CBAM and international regulations.

### Benefits

- Deepen your knowledge of carbon accounting methodologies in line with GHG Protocol standards,
- Align your organisation's compliance with the regulatory impacts of the Carbon Border Adjustment Mechanism (CBAM),
- Develop practical understanding and skills for quantifying and reporting GHG emissions, and
- Enhance your ability to implement effective carbon management strategies within your organisation.

### Who should apply?

The training is open only to professionals working in manufacturing sectors and industries with production-oriented supply chains, including:

- C-Suite Executives,
- Heads of Compliance,
- Senior Compliance Officers,
- Heads of Supply Chain,
- Heads of Procurement,
- Heads of Purchasing,
- Sustainability Professionals

### Details

<b>Duration</b>	<b>9 hours total (2 online sessions + 3 hours self-study)</b>
<b>Instruction Method</b>	<b>Interactive format with breakout group exercises</b>
<b>Certification</b>	<b>IGCC Certificate of Participation</b>
<b>Course Fee</b>	<b>Members: INR 15,000 + GST Non-Members: INR 18,000 + GST</b>

## **Content**

### **Carbon Accounting in line with CBAM – 2-Day Virtual Workshop**

#### **Module 1** (Virtual, 3 hours)

##### **Carbon Accounting and the GHG Protocol**

- Fundamentals of Carbon Accounting
- Understanding the Greenhouse Gas (GHG) Protocol
- Methodologies for Calculating Scope 1, 2, and 3 Emissions

#### **Module 2** (Virtual, 3 hours)

##### **Understanding CBAM Requirements and Quantifying Emissions**

- Introduction to CBAM and Business Implications for Indian Exporters
- Understanding the Overlaps between GHG Protocol and CBAM Requirements
- Quantifying GHG Emissions Under CBAM

#### **Self-Learning Component** (3 hours)

- Handouts containing self-study materials,
- Reference links for further learning,
- Informative resources.

***A certificate of participation is given upon successful completion.***

### **Workshop Dates:**

Virtual Session 1: **12 November 2024 | 10:30 - 13:30 IST**

Virtual Session 2: **14 November 2024 | 10:30 - 13:30 IST**
